

WAHH WORLD FUSION BAND

SHORT BIO

Trailblazers of a unique and multiform sound, 'WAHH!' is rooted in India's rich traditional musical culture and enveloped in an artful weave of Jazz, Rock and Funk.

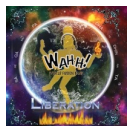

The highlights of WAHH's many recent performances include playing to a fully packed theatre of enthusiastic fans at the *Tropical Heatwave Festival* where WAHH! received a *standing ovation* from the 'standing room only' crowd, performing for Tampa Bay's prestigious '*Gasparilla Music Festival*, the *ICC Fundraiser Concert* with an audience of over 500 people and *The WMNF Radio Benefit Concert* at the *Hideaway* in St. Pete, Fl where the venue had to turn people away because they were *over-capacity*.

Reflecting prominent, traditional Indian influences and strong Western influences, WAHH! *World Fusion Band* also brings in subtle influences from the Middle East and Africa. WAHH!'s masterful fusing of musical genres and artful combination of traditional and modern musical expression appeals to wide and diverse audiences with a distinct Global Appeal.
